

Staff HIGHLIGHTS

Debra Clark

Since January 2020, Debra Clark has been a valued Family Support Worker in our Growing Nurturing Families program. She covers the Pittsburg, Kan. area and southeast Kansas with ease, thanks to her past experiences in child welfare. Debbie's daily tasks involve providing emotional and physical support to her client families, which often involves referring them to local food banks, Christmas help and other resources. Her exceptional communication and personable skills have enabled her to develop respectful relationships with her clients, something that makes her and the program proud.

Debbie loves working within her team and has received high praise from assigned therapists who have observed her determination and hard work. She often shares her life experiences, which include growing up on a farm, building and establishing her home on family land in Oklahoma and her family and work life. Her wealth of knowledge is an asset to our program and clients within our Growing Nurturing Families program are stronger and more successful because of her contributions. We are thrilled to have Debbie on our team and offer her our heartfelt congratulations for her hard work and dedication. Three cheers for Debbie!
