

# Staff HIGHLIGHTS

## Lori Brown

Since July 2022, Lori Brown has been a PCIT Therapist with Grow Nurturing Families. While she primarily works out of the El Dorado office, she covers a broad range of counties. Lori's exceptional skills as a therapist have made our program stronger. Her willingness to go the extra mile for our families and co-workers was evident when she covered for two different therapists who were on maternity leave. This required her to cover three areas - Topeka, Emporia and Pittsburg - simultaneously. Lori handles her workload and time management with ease and positivity, and her professionalism shines through in all her interactions with her peers and community partners. She's not just an excellent therapist but also a dog-lover, craft enthusiast and avid traveler who recently explored Alaska. We're grateful to have Lori on our team and appreciate her dedication to our program.
