# About FCT

Foster Care Technology is a mission-driven technology company focused on creating better outcomes for youth in foster care. We are a team of social workers, software developers, and businesspeople, committed to the vision of creating placement stability for all foster children and helping them achieve permanency more quickly.

## ECAP

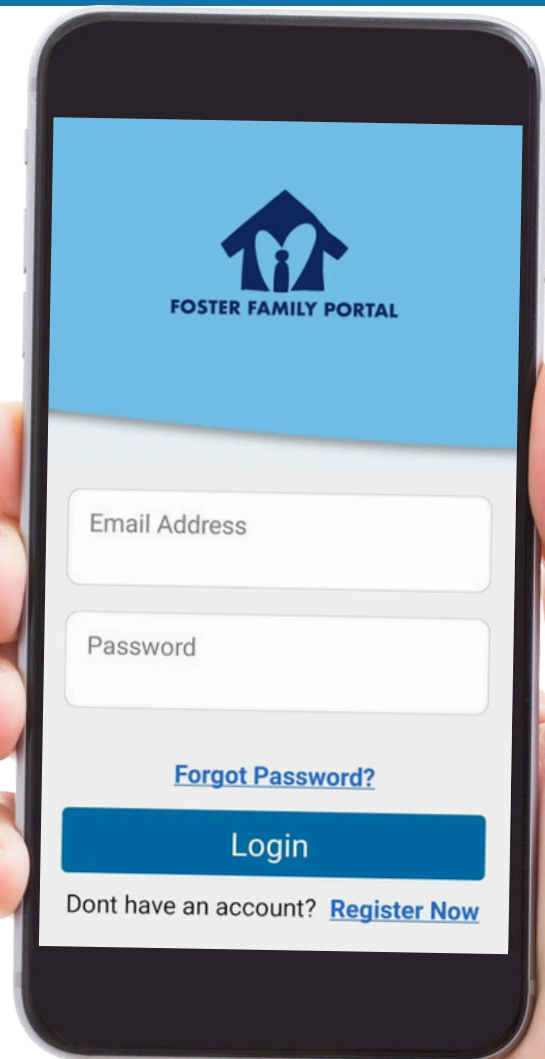

This web-based platform offers comprehensive tools and features for caseworkers and agencies to gather, analyze, and track data, resulting in more informed decision-making and tailored support for the well-being of foster children.

## FOSTER FAMILY PORTAL

This user-friendly mobile app allows both foster families and caseworkers to manage schedules and communicate with each other, while providing access to important resource. For agencies, the portal offers a comprehensive dashboard that provides real-time insights and analytics into the foster care system.

## PLACEMENT PROCESS CONSULTING

While integrating cutting-edge matching technology is imperative, understanding and refining the entire placement process is just as crucial. With our Placement Process Consulting services, we bridge the gap, ensuring technology and tradition work hand in hand.

FOSTER CARE TECHNOLOGIES

# Executive Team

**Paul Epps**

*Vice President*

At FCT, we're not just a team – we're a family of social workers, software developers, and business visionaries. With a shared commitment to a singular vision, we strive tirelessly to ensure every foster child experiences the stability they deserve.

**Our belief is unwavering: placement stability holds the key to positive outcomes across the spectrum of a child's life – be it emotional, medical, academic, or relational.**

“ECAP took the guesswork out of intake. I’ve been doing foster care and adoption for 23 years. The downfall in placing children is not having the information up front; making a blind match often leads to a poor match. The matches we received were spot-on. It took time off of my hands and allowed us to focus on quality care for each child.”

**Lisa Iezzi, Social Worker**

Touchstone Residential, North Carolina
